

CAPABILITY STATEMENT

WWW.ABILITYENGINEERING.COM

AET, founded in 1947, offers specialized engineering, fabrication, and automation solutions globally for the agricultural sector. Our core expertise lies in equipment designed for cryogenic, vacuum, and process applications. Although we've served industries such as Energy, Oil & Gas, and Aerospace, our deep understanding of agribusiness and post-processing ensures we're a trusted partner for your agricultural endeavors.

CORE COMPETENCIES

- Engineering & Design
- Welding, Machining, and Fabrication
- Panel Building & PLC Programming
- Pilot Testing & Process Refinement

DIFFERENTIATORS

- In-House Engineering & Manufacturing
- ASME Section VIII DIV.1 & ISO 9001:2015
- Project Diversity & Technical Expertise
- ISO Class 7 Clean Room Capacity

CONTACT
